Kitchener / Toronto, ON | matthew.chrzaszcz@gmail.com | MattCPA.ca

SUMMARY

Strategic finance leader and CPA with 10+ years of FP&A, strategic finance, analytics, and startup finance experience across online gaming, SaaS, and high-growth technology companies. Track record improving profitability, identifying multi-million-dollar savings and revenue opportunities, building scalable forecasting and reporting processes, and partnering with CFOs and executives to turn fragmented business data into clear operating decisions. Differentiated by the ability to build the models, BI infrastructure, automation, and internal tools that make finance a strategic operating function.

CORE SKILLS

Strategic Finance & FP&A: Budgeting, forecasting, long-range planning, three-statement modeling, board reporting, KPI frameworks, SaaS metrics, cohort analysis, customer economics, pricing and offer analysis, margin improvement, cost control, scenario planning

Analytics, Data & Automation: Excel, Power Query, SQL, Codex, Claude Code, Python, dbt, Airflow, Postgres, Metabase, Looker, Periscope, Tableau, Salesforce, NetSuite, Xero, QuickBooks, n8n, Docker, AI-enabled reporting

Leadership & Business Partnership: CFO partnership, executive decision support, team leadership, cross-functional planning, business case development, strategic operations, startup finance, first-finance-hire environments

EXPERIENCE

Legendz

Jan 2025 - Present

Head of Strategic Finance

- Lead strategic finance, FP&A, analytics, and decision support for a high-growth online gaming business with approximately 50 employees and \$50M in annualized revenue, partnering directly with the CFO and leaders across Finance, VIP, CRM, Customer Service, Marketing, and Operations.
- Built the company's internal analytics infrastructure using SQL, dbt, Airflow, Postgres, Metabase, n8n, Docker, and cloud infrastructure; automated dashboards, datamarts, and recurring reporting.
- Developed internal analytics and AI-enabled tools, including Lumina AI, Silver CRM, VIP/customer scoring, urgency scoring, and automated data science workflows to improve CRM, VIP, and customer operations.
- Supported the VIP program, a key revenue driver representing approximately 40% of company revenue, through segmentation, retention analysis, CRM insights, offer strategy, and performance measurement.

Pinnacle

Jan 2023 - Jan 2025

Head of FP&A

- Led FP&A, budgeting, forecasting, and strategic finance for a global online gaming business, partnering with leadership on cost control, operating efficiency, and profitability improvement.
- Led the annual budget process with a strong focus on cost control, contributing to a 15% reduction in operating expenses and a 50% improvement in operating profit versus fiscal 2023.
- Partnered with Payments to identify provider overcharges, recover approximately \$0.5M, and secure lower fees generating an additional estimated \$1.5M in savings.
- Partnered with the Affiliate team to uncover commission leakage and system gaming by affiliates, enforcing contract compliance and optimizing commission structures to save approximately \$1M annually.
- Led one direct report and built automated budgeting, forecasting, and reporting processes; partnered with Accounting to improve revenue reconciliations, accruals, and expense analysis.

Vidyard**Nov 2020 - Jan 2023***Senior Manager, Revenue FP&A*

- Helped transform FP&A from a reporting function into a strategic partner by building the data architecture, financial models, and reporting foundation needed for better revenue planning and decision-making.
- Built bottoms-up revenue modeling capabilities using SQL, dbt, Periscope/Looker, Excel, and Power Query, improving visibility into revenue performance, pipeline, customer behavior, and growth drivers.
- Partnered with executive leadership through a shifting post-pandemic market; reduced marketing spend by approximately \$1M per month without a major impact to revenue and supported proactive hiring and backfill decisions.
- Identified over \$500K in annual savings and incremental revenue opportunity by analyzing BDR team performance and scaling back lower-converting pipeline sources.
- Supported strategic initiatives across revenue, marketing, sales, product, international expansion, localization, product roadmap prioritization, M&A analysis, and potential financing processes.

Matt Consulting / Bonsai / Vital Biosciences**Apr 2020 - Apr 2021***Founder & Fractional Head of Finance*

- Served as fractional finance leader for early-stage startups, helping founders build the financial infrastructure needed to manage runway, support fundraising, and make better operating decisions.
- Built three-statement financial models, cash burn forecasts, expense tracking processes, and scenario planning tools to help leadership manage cash through COVID and periods of financial constraint.
- Established core finance processes including monthly reporting, payroll coordination, expense management, budget tracking, investor documentation, grant support, and financial forecasts.

Looka**May 2019 - Apr 2020***Head of Finance (First Finance Hire)*

- Built the finance function from the ground up for a high-growth startup, owning accounting, FP&A, financial reporting, cash management, compliance, and investor support.
- Coordinated the release of more than \$1M trapped in PayPal by working with banking partners and cross-border payment stakeholders.
- Developed a data-driven accounting and reporting system in Excel that improved close speed, financial visibility, and accuracy of internal reporting.
- Supported financing processes, investor reporting, government grants, SR&ED work, CRA/GST/HST audit requirements, payroll, banking, expense processes, and compliance workflows.

FreshBooks**May 2017 - Apr 2019***FP&A Manager*

- Owned and supported revenue forecasting, financial planning, KPI reporting, board reporting, and business performance analysis across Sales, Marketing, Product, and Customer Success.
- Built automated reporting and forecasting tools using Excel, Power Query, SQL, Looker, Periscope, Salesforce, and NetSuite, improving visibility into company performance and reducing manual reporting work.
- Developed business cases for strategic growth initiatives, including pricing, offers, referrals, direct buy, outbound telemarketing, marketing investment, and new product features.
- Identified and advocated for a multi-million-dollar enterprise market opportunity, helping leadership pursue a meaningful new revenue stream.
